

Will the broadcast flag interfere with consumers ability to make copies of DTV content for their personal use, either on personal video recorders or removable media?

I DON'T THINK SO. AS THEY SAY MONEY TALKS, BS WALKS...IN THIS CASE RIGHT IN THE ARMS OF FEDERAL LAW ENFORCEMENT. LET'S FOR ONCE HAVE THE FCC RULE IN FAVOR OF GENERAL PUBLIC...AND NOT IN FAVOR BILLION DOLLAR CORP! I KNOW IT'S HARD FOR THE FCC TO DO THIS, SINCE MOST, IF NOT ALL COME FROM BIG CORP AMERICA....INCLUDING CHAIRMAN POWELL!

Would the digital flag interfere with consumers ability to send DTV content across networks, such as home digital networks connecting digital set top boxes, digital recorders, digital servers and digital display devices?

IT MOST CERTAINLY WILL INTERFERE WITH CONSUMERS' ABILITY TO SEND DTV CONTENT ACROSS NETWORKS, SUCH AS HOME DIGITAL NETWORKS CONNECTING DIGITAL SET TOP BOXES, DIGITAL RECORDERS, DIGITAL SERVERS AND DIGITAL DISPLAY DEVICES!

Would the broadcast flag requirement limit consumers ability to use their existing electronic equipment (equipment not built to look for the flag) or make it difficult to use older components with new equipment that is compliant with the broadcast flag standard?

IMPOSSIBLE FOR OLDER COMPONENTS TO WORK WITH IN NEW BROADCAST FLAG STANDARDS

Would a broadcast flag requirement limit the development of future equipment providing consumers with new options?

OF COURSE IT WILL...YOU WON'T BE ABLE GO ANY WHERE WITH BUMPING INTO BROADCAST FLAG STANDARDS

What will be the cost impact, if any, that a broadcast flag requirement would have on consumer electronics equipment?

3000X10 TO 24TH PWR! ALL COSTS WILL BE PASTED ALONG TO THE AMERICAN CONSUMERS! WHILE OUT SIDE THE USA...THEY WILL NOT LET THEM SELVES BE BOGGED DOWN WITH CORP USA GREED!
